

Seamless Geoinformation of Coastal Zone “Southern Coastal Zone of the Ishikari Depression”

Seamless Geoinformation of Coastal Zone “Southern Coastal Zone of the Ishikari Depression” contains results of geological and geophysical surveys, which were conducted in 2011 and 2012.

This DVD contains maps and documents listed below. They can be seen by starting [index_e.html](#).

Contents

[readme_e.txt](#)

Preface by Y. Okamura

Study area map

[Marine Geology]

- (1) 1:200,000 Marine geological map along the coastal zone around Yufutsu Plain with explanatory notes, by T. Sato
- (2) Sediments and sedimentation on the shelf off Yufutsu, Hokkaido, Japan, by H. Katayama, Y. Uchida, K. Koshimizu, N. Nishida, K. Ikehara, and R. Nakashima

[Land Geology]

- (3) 1:200,000 Land geological map of the Ishikari Depression and its surrounding area with explanatory notes, by M. Ozaki and T. Komatsubara
- (4) The boring survey of the upper Quaternary in the Yufutsu Plain and Shikotsu Pyroclastic Flow Upland, central Hokkaido Island, northern Japan, by T. Komatsubara, J. Komatsubara, M. Hongo, S. Tanabe, T. Ueki, R. Nakashima, and T. Ishihara
- (5) Subsurface geology and active structures beneath the Yufutsu Plain and Shikotsu Pyroclastic Flow Upland, by T. Komatsubara, Y. Kou, and J. Komatsubara
- (6) The shallow- level subsurface geologic structure based on analysis of borehole data in the Naganuma lowland and the adjacent area of the central Ishikari lowland Zone, Hokkaido, by K. Kimura, Y. Kou and Y. Hanashima
- (7) Processing of seismic reflection survey data newly conducted around the Yufutsu area, Hokkaido, Japan, by T. Yokokura, K. Yamaguchi, and S. Okada
- (8) Re-processing of offshore and onshore seismic reflection survey data around Yufutsu area, Hokkaido, Japan, by K. Yamaguchi, T. Yokokura, S. Okada, and S. Abe

[Geophysical Map]

- (9) 1:200,000 Gravity map of the Ishikari Depression and its surrounding area (Bouguer Anomalies) with explanatory notes, by M. Komazawa, S. Okuma, and M. Joshima
- (10) 1:200,000 Aeromagnetic map of the Ishikari Depression and its surrounding area (Total Magnetic Intensity) with explanatory notes, by S. Okuma and T. Nakatsuka

[Seamless and integrated]

- (11) Active structures and basal topography of the Alluvium (Post-glacial deposits) in southern part of the Ishikari Depression and off Yufutsu region, central Hokkaido, by T. Sato and T. Komatsubara
- (12) Subsurface geological structure revealed by seismic reflection surveys around the southern part of the eastern boundary fault zone of the Ishikari lowland, Hokkaido, Japan, by T. Yokokura, S. Okada, and K. Yamaguchi
- (13) 1 : 200,000 Marine and land geological map of the Ishikari Depression and its surrounding area, by T. Sato, M. Ozaki, and T. Komatsubara
- (14) 1 : 200,000 Geological map with gravity contours of the Ishikari Depression and its surrounding area, by M. Komazawa, S. Okuma, M. Joshima, T. Sato, M. Ozaki, and T. Komatsubara
- (15) 1 : 200,000 Geological map with aeromagnetic contours of the Ishikari Depression and its surrounding area, by S. Okuma, T. Nakatsuka, T. Sato, M. Ozaki, and T. Komatsubara
- (16) 1 : 200,000 Aeromagnetic map with gravity contours of the Ishikari Depression and its surrounding area, by S. Okuma, M. Komazawa, T. Nakatsuka, and M. Joshima

Acknowledgements

This issue was prepared by supports of people listed below.

Review of manuscripts: K. Arai, H. Katayama, J. Komatsubara, T. Komatsubara, M. Makino, K. Mizuno, T. Nakajima, R. Nakashima. M. Ozaki, Y. Okamura, A. Sakai, K. Nawa, K. Takeuchi, T. Yokota

GIS data processing: J. Miyazaki

Raster data processing: S. Kawabata

Procedure of geographical data publication: K. Nakajima

Editing pdf files: M. Ozaki

Editing HTML files: Y. Satou

Cover and case design: A. Shima, M. Ozaki

Data Format and System Requirements

Data Format: The maps, explanatory notes, appendix data in PDF, HTML, JPG format can be browsed with Adobe Reader and web browsers.

Operating Systems: Windows and Macintosh platforms that are capable of running the application mentioned above properly. With Macintosh, however, some image may not be displayed properly.
