

20万分の1日本シームレス地質図V2 凡例(堆積岩)

ver. 2020/7/10

Geological legend table for sedimentary rocks. Columns include geological era (e.g., Quaternary, Neogene, Paleogene, Cretaceous, Jurassic, Triassic, Permian, Carboniferous, Devonian, Silurian, Ordovician, Cambrian), geological period, and various rock types (e.g., sandstone, siltstone, shale, claystone, etc.). The table is color-coded to represent different rock types and includes a detailed legend for '堆積岩' (Sedimentary Rocks) at the top right.
